

# EXPERIENCE

ALL THE PLEASURE OF NATURE IN A CUP

# NATURE AT ANY TIME OF THE DAY

The solution for all requirements. The perfect taste for every palate. Bonomelli has developed a wide range of different products that meet all the consumer's needs and complement their moods at different times of the day.

# CAMOMILLA FILTROFIORE

It is instantly recognisable due to its characteristic **intense scent** and **unmistakeable aroma**.

Chamomile tea made **with all the parts of the flower**, full of all the active principles contained in the essential oils.

# CAMOMILLA SETACCIATA

We only use **pure flower heads**, selecting the **cylindrical tubular flowers** to preserve all the organoleptic qualities intact.

# SOLUBLE CHAMOMILLE TEAS

The **fastest, most immediate way** to savour chamomile. A range of excellent products for **consumption hot or cold**, offering various tastes and sweeteners (such as Soluble Chamomile with Honey and Orange or with Stevia).

# HERBAL TEAS

The **Master Blenders** have developed these blends to offer drinks with a pleasant taste.

Every herbal tea always consists of:

- **medicinal plants and concentrated herbal extracts**, to guarantee the benefits and functionality of the recipe
- **herbs and fruit**, to enhance the roundness and goodness of the product

The raw material is prepared using the **filter cutting** method: in fact, the plants are dried and chopped finely to ensure **short infusion times** and give the drink a **high yield when extracting** the functional active principles.

In this way, the Bonomelli Master Blenders have developed a wide range of herbal teas, some of which can be prepared with both hot and cold water, offering a pleasant, natural way to pamper yourself.

They have **selected the plants**, chosen a specific granulometry and, most of all, devised the right combination of ingredients to develop scents, colours and tastes that delight the senses even when **the tea is prepared with cold water**.

# FRUIT INFUSIONS

Delicious, **100% natural** recipes, ideal at any time of the day for a break bursting with flavour.

Each Infused Tea is made by combining a base of herbal plants, which give the drink body, with **fruit and natural aromas**, which produce its characteristic colour, taste and scent.

The result of this mix is a line of products full of a naturally sweet flavour, which can also be **savoured plain**, without sweeteners.

# HERBAL INFUSIONS

100% natural infused teas made only with **two herbs**.  
Taking its inspiration from the finest herbal culture, Bonomelli offers a range of products that combine the taste and function of two herbs **with no other ingredients added**.  
A line of infusions ideal for a herbal experience in its **purest form**.

# CAPSULES

The wisdom and skills of Bonomelli have resulted in the development of **100% compostable** chamomile and herbal teas in capsules. A modern, cutting edge idea that guarantees **the same ingredients and the same excellent taste and functionality in the cup** as the traditional products in teabag format.

# A MEMORABLE EXPERIENCE

Every Bonomelli product is fruit of the **efforts we invest daily in research, selecting the best ingredients, blending and packing our products**, to offer consumers a unique, unforgettable experience. Every day Bonomelli creates special recipes in which natural goodness, functionality and taste combine to constantly offer **all the pleasure of nature in a cup**.
